

# Typography

## Headings

This font is used for headings like video and channel names. It is generally displayed larger than the body text.

Headings Typography Customization	Type / Option	Example Value
Font Family	List of <a href="#">font families</a> sorted by priority	Helvetica, Arial, sans-serif, monospace

## Body Text

This font is the default for all text besides headings. Make sure the font is suitable for longer texts and its color has sufficient contrast to the background of the [Content Sections](#).

Body Typography Customization	Type / Option	Example Value
Font Family	List of font families sorted by priority	Helvetica, Arial, sans-serif, monospace
Font Colors:		
<div>Default Muted Link Error</div>		
Default	Color	#2F3538
Muted	Color	#888C8F
Link	Color	#3192BF
Error	Color	#B54040
