The home page is the landing page for your company's video portal. Here, at a glance, you can see all videos and channels that have been uploaded to your company's video portal. At the top, a featured video is displayed. This video is either the newest video uploaded to your company's portal, or a specific video selected by your administrator. From the home page, you can navigate to all the other areas of CorporateTube and begin uploading and viewing videos on the portal.
