

Response & Error Codes

The movingimage Platform API uses standard HTTP status codes. Here for your reference is a list of common responses and their meanings.

Response Codes

As a general rule, response codes in the 2xx range are successful, in the 4xx range are client errors, and in the 5xx range are server errors (these are rare).

Code	Text	Description
200	OK	Everything went as expected.
201	Created	Resource was created. <ul style="list-style-type: none">This message is sent when you succeed in creating new content in your account (uploading a video or generating subtitles, for example).
204	No Content	Your request to the resource was successful. <ul style="list-style-type: none">In context, this usually means edits you were making (updating video metadata, deleting videos, etc.) were saved.
400	Bad Request	The system didn't understand your request.
401	Unauthorized	You may receive this message for a couple of reasons: <ul style="list-style-type: none">Your attempt to authenticate with the API failed. You'll need to fetch a new token and try againYour authentication credentials are invalid. Check them and try again.
404	Not Found	Resource was deleted or cannot be accessed. <ul style="list-style-type: none">When you perform a DELETE request, this is the success code you will receive in response.
415	Unsupported Media Type	You tried to upload a file format movingimage doesn't support. Check your file type and try again.
500	Internal Server Error	Something went wrong on movingimage's end (this is rare).
502	Bad Gateway	The server was unable to process your request.

Error Codes

Error Code	Text	Description
1001	"Root channel cannot be deleted."	You are not allowed to delete the root channel.
1002	"Channel has subchannels and cannot be deleted."	You cannot delete a channel that contains subchannels.
1003	"Google user ID already assigned."	You cannot assign a social media profile to the same YouTube account twice.
1004	"Facebook page ID already assigned."	You cannot assign a social media profile to the same Facebook account twice.
1101	"Upload not possible because you reached your storage limit. "	If you receive this response, it means your upload was denied because you've reached the limits of your booked storage capacity
