

Time-controlled deletion

This feature enables you to schedule an exact time for a video to be automatically moved to the trash.

This option facilitates the deletion process if videos need to be removed, for example, for legal reasons.

You can conveniently set up automatic deletion when you first upload and edit a video, so you don't have to delete the video manually later.

 If the video is linked to one or more channels, this feature will both unlink the video from these channels and also delete it.

1. In the video list, highlight the entry of the video which you want to be deleted at a specific time.
2. Open the **Security** accordion menu in the editing pane.
3. Click the  icon in the menu item "Timer for deletion". Editing fields for a date and time will appear below.

The screenshot shows the 'Security' settings panel. It has a blue header with a shield icon and the word 'Security'. Below the header are three sections: 'Video release' with a clock icon and a checked toggle; 'Download release' with a greyed-out toggle; and 'Timer for deletion' with a green timer icon. Under 'Timer for deletion', there are two input fields: 'Date' with a calendar icon and a dropdown menu, and 'Time' with a dropdown menu. The date is set to 'February 19, 2020' and the time is '11:00'. At the bottom are 'Cancel' and 'Apply' buttons.

4. Enter the desired deletion date and select the time from the drop-down menu.
5. Click the [Apply] button. A confirmation dialog opens.

The screenshot shows a 'Delete Video' confirmation dialog. It has a title bar with 'Delete Video' and a close button. The main text reads: 'The video will be moved to the recycle bin when the timer expires. All existing channel links for this video are also removed. Are you sure you want to activate the timer for automatic deletion?'. At the bottom are 'Cancel' and 'Enable Timer' buttons.

6. Click the [Enable timer] button. The video will now show the  icon and deletion date in the video list.
7. If you want to remove an existing deletion date, click the [Delete] button.

The screenshot shows the 'Timer for deletion' section of the settings panel. It has a blue timer icon in the top right corner. The 'Date' field is set to 'February 19, 2020' and the 'Time' field is set to '11:00'. At the bottom are 'Cancel', 'Apply', and 'Delete' buttons.
