

Time-controlled Release

Optionally, you have the opportunity to release a video for a certain period of time automatically. For this purpose, you can define the period of time using exact hours.

1. Select the desired video in the video list by clicking on the appropriate entry.
2. Open the accordion menu **Security**.

The screenshot shows the 'Security' settings page. At the top, there is a blue header with a shield icon and the word 'Security'. Below the header, there are several settings sections: 'Video release' (highlighted in yellow), 'Download release', 'Timer for deletion', 'Security Policy', 'Group', and 'Access Profile'. Each section has a dropdown menu or a toggle switch.

3. Click on the  icon in the menu item "Video release". Fields open for entering date and time.

The screenshot shows the 'Security' settings page with the 'Video release' settings expanded. The 'Video release' section is highlighted in blue. Below it, there are four fields: 'Start date' (February 18, 2020), 'Start time' (15:00), 'End date' (February 19, 2020), and 'End time' (15:00). There are 'Cancel' and 'Apply' buttons. The 'Download release' section is also visible, with a blue checkmark and a toggle switch. The 'Timer for deletion', 'Security Policy', 'Group', and 'Access Profile' sections are also visible.

4. Enter the desired start date and select the time from the drop down menu.
5. Define also the desired end date and time.

6. Click on the [Apply] button. The release period for the video is set; in the video list, the entry is marked accordingly.

To delete a time-controlled release, click the [Delete] button under the "Video release" menu item.

The screenshot shows a 'Security' window with a blue header. Below the header, there is a 'Video release' section. This section includes a blue clock icon, a checkmark icon, and a grey 'x' icon. Underneath, there are four input fields: 'Start date' (February 18, 2020), 'Start time' (00:00), 'End date' (February 19, 2020), and 'End time' (12:00). At the bottom of this section are three buttons: 'Cancel', 'Apply', and 'Delete'. Below the 'Video release' section is a 'Download release' section with a toggle switch that is currently turned off. At the bottom is a 'Timer for deletion' section with a clock icon.

Please keep in mind that only the **period for automatic release** is removed. The video still remains released. To change the release status, you must actively disable the release option.
