

# Rights

The following table lists all role, video, and channel rights of the platform.

	Right	Description
Administration rights	Administration area	The user has access to the administration area. He is allowed to do all administrative tasks in the account.
	Edit security policies	The user is allowed to specify a security setting for a video.
	Player Generator	The user has access to the "Player Generator". He is allowed to customize players.
	Analytics	The user can access the "movingimage Analytics" via the main menu in VideoManager Pro.
Video rights	Delete videos	The user is allowed to move videos to the recycle bin. Videos in the recycle bin are scheduled for final deletion from the account.
	Download videos	The user is allowed to download source videos.
	Duplicate videos	The user is allowed to duplicate videos.
	Edit ownership properties	The user is allowed to assign owner group as well as the access profile to a video.
	Edit videos	The user is allowed to edit videos. For example, he is able to change metadata, specify thumbnails, etc.
	Manage subtitles	The user is allowed to see the "Manage Subtitles" area.
	Publish videos	The user is allowed to release and publish videos.
	Publish videos on YouTube	The user is allowed to provide videos in a YouTube-channel.
	Replace videos	The function "Replace videos" in the advanced editing of videos can be executed.
	Upload videos	The user is allowed to upload new videos in the account.
	View videos	The list of videos in the video management is accessible.
Channel rights	Add videos to/ remove videos from channels	The user is allowed to add videos to specific channels, or he can remove videos from a channel.
	Create channels	<div>The user is allowed to create channels and subchannels.  The channels or subchannels created by a user are not visible for him, if he does not have the right "View channels".</div>
	Delete channels	<div>The user is allowed to delete channels and subchannels. Prerequisite is that the right "View channels" has been assigned as well.</div>
	Edit channels	<div>The user is allowed to edit channels (renaming). Prerequisite is that the right "View channels" has been assigned as well.</div>
	View channel-content	<div>The video lists of the respective channels and subchannels are visible to the user. Prerequisite is that the right "View videos" has been assigned as well.  If the user does not have the right "View channels", the list of all videos is visible, but not channels with the respective videos.</div>
	View channels	The already created channels are visible to the user in the navigation (channel tree).
	View subchannels	<div>The already created subchannels are visible to the user in the navigation (channel tree). Prerequisite is that the right "View channels" has been assigned as well.</div>
